Lockout in Gothenburg Harbour

We now have a lockout at APM Terminals Gothenburg, from May 19 until June 30, 2017, in response to industrial action. This is intended to protect the operation against the most recent threats of industrial action against the company by the Swedish Dockworkers' Union, section 4. During the period of the lockout, APM Terminals Gothenburg will be able to offer only a limited daytime service to customers.

This is out of Infranordics control and we can not take any extra cost/charges such as Harbour rents, congestion surcharge, missed closing, additional cost from shipping line agents or other extra cost that might occur.

We now wait for respons from Swedish Dockworkers Union. We will update our website when we have more information www.infranordic.se.

Best Regards

Stina Gabrielsson
